Family Constellation Observation Questions

Please consider these observation questions about one or more Family Constellations presented in a workshop you attended.

1. What did you feel, notice, observe about how clients were interviewed, the issue identified, or the Representative picked?
2. In what way did the facilitator use order, energy, and facts?
3. Which Orders of Love were violated? Were they repaired?
4. What other insights or questions occurred to you during or after the constellation?
